Julien Dedier 9Z4FZ
Trinidad and Tobago Amateur Radio League
Arima

Congratulations to you and the team of Volunteers of TTARL who successfully made the bridged link via Luis LU8YY for amateur radio contact with the ISS for students at the National Institute of Higher Education Research Science and Technology (NIHERST) at the recent Caribbean youth Science Forum.

IARU-R2 recognize radio amateurs in Trinidad and Tobago for their commitment and involvement to the science of satellite radio communications from the early days of the OSCARS to the present generation of amateur satellites and consider your achievement historic as this was the first contact by school students in Trinidad and Tobago under the official ISS School program.

We are sure this event will fire the imagination of the students to become radio amateurs and continue their interest in the science of Space.

73

Sincerely

A handwritten signature in black ink, appearing to read 'Noel E. Donawa', with a long, sweeping underline.
